Passion For Excellencel

For tasks concerning Supplier Development and/or Sourcing we have Liaison Offices located in the BRIC countries

Our Core-Competence is the Alignment of People and Processes in Support of Long Lasting Financial Benefits

Our Competences and some key consultancy services

Lean Operations Production Systems

“Lean” means more than merely lean production. **We have helped companies roll out and ramp up production systems for more than ten years.** Our expertise is born of experience and informed by insights gained in evaluating 250 companies and their best practices.

People & Change Management

Deploying the right resources at the right time
Despite all the good intentions, many change management initiatives fail because of half-hearted efforts. **Successful change hinges on a company’s ability to apply the right skills at the right time and place.**

Strategy Implementation

Strategy may well be the most misunderstood and misused term in business. When we talk about strategy, we mean a mid-to-long-term plan of action that aligns a company or a unit thereof towards a goal. This includes concrete steps to implement this plan.

Supply Chain Management

Let us connect the links of your supply chain.

The ability to coordinate, network, and manage all players in the supply chain from the source to the sink is a key factor in business success.

Leadership

Top executives have few peers to talk to about their plans and ideas. New approaches, visions, and strategies rarely develop in a vacuum. Executives need competent sparring partners to bounce ideas off and engage in intense brainstorming sessions.

Organisational Development

„Form follows function“

Business organizations are complex entities. To survive and thrive, they must pursue a holistic mid- and long-term program of continuous improvement. We help companies develop processes that will help them rise to future challenges.

Supplier Development & Integration

Supplier development and integration in the spirit of partnership

In many projects, we were able to launch the first supplier development initiatives as soon as the production systems were in place.

Change Communication

A mass mail is not enough! Change initiatives frequently fail for a lack of communication. It's not what is said, but what is heard that matters.

We are Recognised as a Long-Term Partner to our Customers

A collection of some of our customers

Automotive	Manufacturing & Engineering	Process Industries & Utilities	CPRD Consumer Products, Retail&Distribution	Service Industries & Public Services
    	    	    	   	  

Our Customer's Opinion is Always the best Starting Point...

References

We worked repeatedly with Quadriga – always with excellent results

Thomas Buchholz, President SHW Automotive AG – formerly TI Automotive GmbH

„Good preparation and consequent employee involvement allowed us to overcome many internal hurdles and ultimately lead to a very successful result.“

Dr. Ulrich Dohle, President Rolls Royce Power Systems AG

„Excellent Job! Payback in less than six months“; „For challenging projects – we work with Quadriga.“

Dr.- Ing. Andreas Thumm, CEO, FTE Automotive and Dr. Reiner Rössle, COO FTE Automotive

„A pragmatic approach, an efficient implementation, an eye for realisable solutions and result driven suggestions guaranteed concrete and swift success.“

Pierre Delayen, Director für HSE, Groupe Saint-Gobain

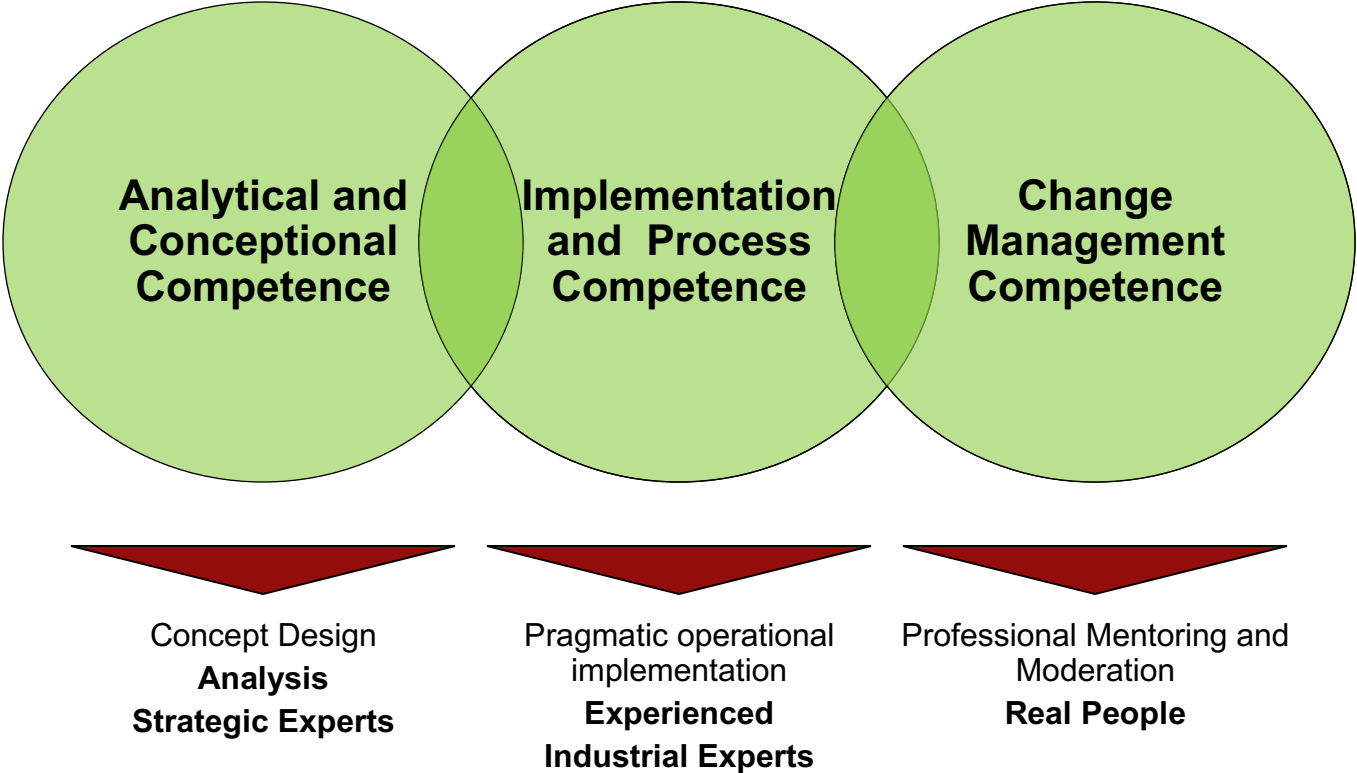

„The reliable consultancy, combined with excellent specialist knowledge, lead to high operational effectivity. The consultant is recommended for further projects.“

Rolf Näder, Vice President Operations, Plant Schweinfurt

We are Able to Create, Implement and Moderate Change
